

**News Release: Trevor Phillips awarded Knighthood in New Year Honours 2022**

01/01/2022

We are pleased to receive the news that Trevor Phillips, co-founder of Webber Phillips, was today honoured with a Knighthood in the New Year Honours 2022 for his work on understanding Covid-19.

Trevor said:

*"It is a privilege to have made a contribution to the understanding of Covid and to have the value of data science in tackling inequality recognised in this way. I am grateful to my friends and colleagues at Webber Phillips, particularly my co-founder Richard Webber; and to Raj Tulsiani and the team at Green Park for their support in this work.*

*The past two years should have taught us all that the diversity of our people is both a benefit and a responsibility. We should respect difference but also remember that we are at our best when we face our challenges as a single nation."*
